

Subject: June 9 NCDXC Meeting Announcement

Date: Saturday, May 14, 2005 22:00

Hi all,

Steve Jones N6SJ will speak at our June 9th meeting on "CW DXing: Tips and Tricks."

Steve is a passionate CW DXer and has pulled together a very informative presentation. I know Steve has put a great deal of effort and thought into his talk and wants to turn you and me into better CW ops. I don't know about you, but I do know that I will benefit from what Steve has to say. Here is the abstract of his talk.

Think CW is an archaic form of communication? Just an obstacle to be overcome to gain more frequency privileges? Think again! Steve Jones will present "CW DXing: Tips & Tricks." Steve will discuss why CW is an important mode to master on your way to working more DXCC entities, and how new DXers can develop their station and skills to become effective CW DX operators.

Steve Jones, N6SJ, loves DX, CW and growing antennas in the Santa Cruz Mountains. Steve used his amateur radio background to develop a 32-year career in the microwave manufacturing industry. Steve currently consults as an independent project manager on telecommunications installations.

An of course Carolyn and Mike will have another great RAFFLE in store for us.

The meeting is at Harry's Hofbrau at 1909 El Camino Real in Redwood City just North of the junction of Woodside Road (Highway 84). The social hour begins about 6:00 PM and dinner and refreshments are available. The meeting begins at 7:30 PM.

Please plan to attend!!!

73,

John Eisenberg k6yp
