

Apollo 11 - 40th Anniversary

At 02:39 UTC on Monday July 21 (10:39pm EDT, Sunday July 20), 1969, Armstrong opened the hatch, and at 02:51 UTC began his descent to the Moon's surface. The Remote Control Unit controls on his chest kept him from seeing his feet. Climbing down the nine-rung ladder, Armstrong pulled a D-ring to deploy the Modular Equipment Stowage Assembly (MESA) folded against Eagle's side and activate the TV camera, and at 02:56 UTC (10:56pm EDT) he set his left foot on the surface.

After describing the surface dust ("fine and almost like a powder"), Armstrong stepped off Eagle's footpad and into history as the first human to set foot on another world. It was then that he uttered his famous line "That's one small step for man, one giant leap for mankind" six and a half hours after landing. Aldrin joined him, describing the view as "Magnificent desolation." Armstrong said that moving in the Moon's gravity, one-sixth of Earth's, was "even perhaps easier than the simulations... It's absolutely no trouble to walk around".

President's Message

By Craig Bradley, AE6RR

The June meeting was another good one. As someone who has experimented with a remote controlled station, I especially enjoyed Don Melcher, W6CZ's talk on Remote Radio Operation over the Internet. He has been at this for a long time and knows what works and what does not. There were some great tips in his talk. He also had some great stories. His remote station is very impressive and it was great to hear a 4X from the remote during the meeting!

Well, Solar Cycle 24 is still trying to get going, there were high hopes for field day, but it was spotless. At least the FD stations didn't get QRMed by DX! We currently have a very active sunspot; number 1024 is the first big sunspot of cycle 24. It hasn't done much for propagation yet with the SFI at 71 as I write this but it is an improvement. Stay tuned for an encore!

The annual elections were held at the June meeting and I would like to thank everyone for great turnout and a vote of

Be sure to drop off your bureau cards to Doug, W6JD at our next meeting. The club will then send them all to the ARRL Outgoing QSL Bureau for free. Be sure to take advantage of this excellent FREE service to club members.

President's Message (continues from pg. 1)

confidence, I am looking forward to another year. Phil, K6TT our new VP is already starting to line up speakers and it sounds like there will be some excellent ones. If you know of someone with a good DX topic or would like to give a talk, please contact Phil.

It is July again and that means that dues are due. Phil, K6TT has PayPal running on the web site and it works great. I tried it and it was painless, no check to write, no envelope to address and no stamp required. Give it a try! See details on dues elsewhere in this issue.

I am looking forward to the picnic on August 1st (details elsewhere in this issue) and I am trying to get some cards together for checking. Rumor has it that there will be card checking going on in addition to the usual hamburger and hotdog eating, DX bragging, etc. I look forward to seeing many of you there. There will even be a GOTA station. BYOSP (Bring Your Own Sun Spots).

For now, 73 and good DX!

- Craig, AE6RR

2009-2010 NCDXC

CLUB OFFICER ELECTION RESULTS

As a result of the elections held at the last meeting the following incumbents and new officers will take office on August 1st, during the club picnic according to the club bylaws.

Officer

Craig Bradley, AE6RR
Phil Steffora, K6TT
Russ Benson, K6KLY
Jose Picazo, WT6X
Steve Jones, N6SJ
Jim Abraham, W6EB
John Eisenberg, K6YP
